Newegg ps5 headset

I needed to go to an Apple computer, phone and iPad because of software changes in my buisness. I was able to purchase the Macbook Air, iphone 5se and iPad Air. These items were either open boxes or repaired with an A. Fabulous prices, everything worked and looked new. I'm a loyal user popular in the store line who deals in the same items, however I can't get that kind of bargains, especially under these conditions and prices.
